25X1 1. No troop movements were observed in the Cesky Krumlov (N 49/Q 84) and Prachatice (M 50/Q 56) areas from late September to 9 November 1950. *

25X1 Comment. It was previously reported that Czechoslovakian troops, including artillery and tank troops, had arrived in the Cesky Krumlov and Prachatice areas in early September 1950. In late September these troops reportedly left again. It was believed that the units mentioned had been gathered at the Bolatice troop training grounds for maneuvers. This belief is supported by the present report, which indicates that no troop movements were seen in the area concerned after the conclusion of the maneuvers, which generally ended in late September or early October.
